

# The Alternate

This isn't [your timeline](#) or possibly not even your universe or dimension. Perhaps you were sent back in time to stop the Daleks conquering the Earth. Possibly you were even cloned to be a human sacrifice in a bottle universe, and escaped.

- Examples: Shura <sup>1)</sup>, Christine Summerfield<sup>2)</sup>, Rachel Cooper<sup>3)</sup>, Adric <sup>4)</sup>

## Background Options

Choose one:

- **War Torn:** You've been through it, you've seen what it can be like out there and hope it never gets like that here.
  - Whenever you tell an anecdote about your alternate timeline/universe you get +1 Forward if you then act on it.
- **New Life:** You should be dead or shouldn't even exist, but somehow you're here. You have your whole alternate life ahead of you.
  - Once per session you may re-roll to avoid taking [Harm](#), [Stress](#), [Malevolence](#) or [Completion](#) when you otherwise would.
