

Fighting Styles

The warriors of Shen Zhou are widely acknowledged as the most personally formidable in the world, while the Legions of the Imperium are acknowledged as the finest soldiers. Magadha is not known for its warriors, but its wrestlers and yogis are renowned. Mystical warriors are well known in Shen Zhou, and have appeared throughout the Imperium and in virtually every nation where magic is practiced.

Non player character common guards, soldiers and mercenaries will generally not receive martial arts packages, instead receiving weapon familiarities and combat skill levels. Player characters may reasonably purchase any traditional martial art or fighting style appropriate to their place of origin or early training. Chi powers and other extraordinary fighting abilities are permitted.
