

# Disappearing Guests

By 5lippers ([original post](#))

The players leave one of the hotel rooms to discover that the hotel is completely deserted. Staff and guests alike are missing and even those rats (rats!! rats!!) seem to be quiet.

Hellooooooooo! Where's everyone gone?

After a period of time, the players discover that all guests and staff seem to have reappeared and are going about their business as if nothing untoward has happened. The players somehow failed to notice the exact moment when everyone reappeared. When questioned, guests will look at the players as if they're crazy.
