

Goth Girl

By Steve ([original post](#))

Pale skinned and wearing black clothes that show off a nice figure, only going out at night from her room, she keeps to herself. Occasionally, strange words in an unknown language can be heard coming from her room. Are they chants? Why is she never seen during the daylight? She never seems to have trouble paying her hotel bills (always to the night manager), so where does she get the money from? Is she a prostitute from some Eastern European country? Is she a witch?
