

Key Boy

By 5lippers ([original post](#))

Key Boy always carries an old door lock and key around with him in a battered satchel. He's very cagey about the lock and key but, if he trusts someone enough, he will tell them that the key & lock allow him to open any door or window. He even claims that he can use the key & lock to open doors where none exist. When asked where these doors go, he clams up and changes the subject.

Perhaps Key Boy's lock & key would open the gun room shutters?
