

Little Annie

By KA. ([original post](#))

She is a blond, blue-eyed, cute as a button, 6 year old girl. She lives in the Hotel with her Mother. But there isn't anyone in the hotel who can ever remember seeing her Mother. She is very smart and seems to know all about the adult world, which is rather unnerving. She is never shocked or surprised by anything. If you knock on the door of her room, she will say: "Mommy is resting." or "Mommy is busy." But she will never let anyone in, and there is a really heavy chain on the door, so pushing past her is not an option.

She seems to run all the errands for her Mother. You can see her bringing in groceries. Paying the hotel bill. Playing cards with the adults in the lounge. You just never see her Mother. Is her Mother dead? Did Annie kill her? Is her Mother some undead horror? Is Annie actually the woman who originally rented the room, returned to her youth by: Black Magic? Vampirism? Futuristic Technology gone awry? Is Annie some type of Monster? Automaton? Evil Living Doll?

A few disturbing things about Annie: She always looks exactly the same. Same clothes, same hair. (How does she wash them? Who cuts her hair?) Never a cut, a bruise, a smudge. And she doesn't seem to have grown an inch since... How long has she been living here anyway?
