

The Never-Seen Kids

By Blue Jogger ([original post](#))

They are only heard. They are playing, laughing, and running throughout the hotel at random times (rarely late at night - they are usually good kids). However, no amount of searching will ever locate these kids playing.

Of course, when the PCs are utterly bored and have grown used to it, they will hear the playing, laughing, and running sounds, and then - horrible, horrible screaming sounds. Are they dying? Are they scared? Where the hell are they?

Mundane Explanation: The kids are running up and down very small secret passages within the building. This time, something terrified the poor children.
