

The Twins

By Log ([original post](#))

Martha and Marcia are identical twins that are never seen apart. Ever. They are middle aged black women of medium build, not unattractive, with hair pulled back in tight braids. They always dress alike in vintage clothing (from the 1950s, 1940s, as far back 1880s) which they sew themselves. They seem friendly enough. They always seem to be giggling.

If approached, however, the twins won't respond except to stare and start giggling again. The laughter seems to take an ominous turn as if the twins know a nasty secret, or a rude inside joke. When the twins do speak, to hotel staff or other guests, or very persistent PCs, they speak in perfect unison, glancing at each other out of the corners of their eyes, and laughing in sometimes menacing tones.
