Back to [Fantasy Hero](#)

- **Datin' Goggles:** (Total: 23 Active Cost, 20 Real Cost) +2 PER with Sight Group (4 Active Points); Independent (-2), OIF (-1/2) (Real Cost: 1) plus Detect Marital Status 12- (Sight Group), Discriminatory, Analyze, Range (Real Cost: 14)

While a ring on a finger is a nice giveaway, knowing the truth of a woman's (or man's) marital status might be of benefit. After all, those rings can be removed when need arises.

I plan to introduce these at the start of a Caeon episode, with the symbology in an arcane and totally made up code the wearer will not understand. I'm sure seeing strange symbols over every head in town will result in much confusion and fun for all. Then again, they might figure it out after only a few minutes of reasoning. I plan to use symbols for Unattached, Dating, Engaged, In Love, Unrequited Love, Married, Happily Married, Divorced and probably a few others. This way, the PCs will have to ask a lot of questions to figure out the code.

- **Infinity fridge.** Preserves food and drink for as long as it is stored in there. Possibly a travel version as well. The full featured version may also reduce the weight and/or have more capacity than its size.
- **Ring of Endurance** - +4 Recovery while worn. Cheap, but oh so useful, especially with all that manual labor and walking in most fantasy campaigns
- **Flushy:** This box looks like the typical close-stool. Close the top and push the button (say the magic phrase, whatever) and the top opens a portal to The Plane of Water and the bottom opens a portal to....do we need to know?
Anyway, whatever's inside is flushed away. No muss, no stink, no breeding pit for disease.
