

01 The Basics

Because... there are monsters in the world, Justine. They can walk the Earth without seeming any more real than fairy-stories. They make their plans while everyone else is asleep, and they can move the walls of the maze without anybody ever knowing it. And sometimes... one has to be those monsters. – Godfather Morlock

The Game

Powered by the Paradox is a game about a group of courageous or even foolhardy idealists attempting to survive and thrive in the fringes of the most significant war in the universe between powers terrible and unimaginable.

As a player you will be participating in missions given to you by higher ranks in the Faction - to travel to far places and distant times and do risky and objectively absurd and irrational tasks.

As the Grandfather, you will be enabling the multiverse of time and space, creating wonder and danger - and keeping player interactions with everything relatively consistent.
