

Advanced Turn Sequence

Initiative

Roll initiative as normal.

Method A

- The highest initiative places their counter on the track first.
- Each lower initiatives places their counters 24 segments after the preceding higher initiative.

Method B

- The highest initiative places their counter on the track first.
- Each lower initiatives places their counters the number segments that their initiative roll differs from the the preceding higher initiative.

Weapons

Note - in the case of weapons with ammunition, the speed refers to using a loaded weapon, not to how long it takes to load.

- [List of weapons and times](#) - from SRD and various online sources.
- [Loading times for weapons](#) - from online historical sources.
- [Readying times for weapons](#) - drawing a weapon or putting it away

Movement
